

Spotlight Poster Program

As of 19 October 2026

Saturday 31 October 2026

Group 1 - Effectiveness and safety outcomes	Location: Monash Connect
SP01	**Effectiveness and safety of statins in patients with type 1 diabetes mellitus** Joseph Blais, The University of Hong Kong
SP02	**Tyrosine kinase inhibitors and metabolic disease in chronic myeloid leukemia patients** Yi-Chou Chiu, National Yang Ming Chiao Tung University
SP03	**Granuloma recurrence post-cauterisation in peritoneal dialysis: a self-controlled case series analysis** Fei Yee Lee, Ministry of Health Malaysia
SP04	**SSRI use in the first trimester of pregnancy and risk of MCMs** Haruto Watanabe, Tohoku University
SP05	**Risk of cardiovascular events and methylphenidate/modafinil use in patients with narcolepsy** Daniel Tsai, National Cheng Kung University
SP06	**Benefit and risk of statins in young adults with diabetes** Eric Yuk Fai Wan, The University of Hong Kong
SP07	**Real-world effectiveness and safety of trastuzumab deruxtecan in non-small cell lung cancer** Heng Weng Lin, Chang Gung Memorial Hospital

Group 2 - Pharmacovigilance	Location: Monash Connect
SP08	**Development of signal prioritization system for Thailand's national pharmacovigilance program** Waranee Bunchuailua, Silpakorn University
SP09	**Second-line antidiabetic drugs and acute pancreatitis: absolute risk and self-controlled case series** Franco Cheng, The University of Auckland
SP10	**Azole-induced symmetrical drug-related intertriginous and flexural exanthema: A disproportionality analysis** Sonal Sekhar Miraj, Manipal Academy of Higher Education
SP11	**Pharmacovigilance of Chemotherapy-Induced ADRs in Breast Cancer: A Prospective Multicenter Study** Manjula Santhepete Nanjundaiah, JSS Academy of Higher Education and Research
SP12	**Mapping Methotrexate Toxicity in Pediatric Oncology: An Integrative Pharmacovigilance-Pharmacogenomic Database Study** Albin T Thottankara, Manipal Academy of Higher Education
SP13	**Alpelisib-associated diabetic ketoacidosis: FAERS analysis and systematic review** Meng-Hsuan Tsai, Kaohsiung Chang Gung Memorial Hospital
SP14	**Gabapentinoid poisoning presentations to Victorian emergency departments: a 15-year trend analysis** Ting Xia, Monash University

Sunday 1 November 2026

Group 1 - Pharmacy practice and drug utilisation	Location: Monash Connect
SP15	**Global trends in Esketamine utilisation: An analysis of multinational sales data** Eunice Kehui Deng, The University of Hong Kong
SP16	**Socioeconomic and geographic inequities in access to Parkinson's disease treatment in NSW** Andrew Evans, The University of Melbourne
SP17	**Implementing WHO-Recommended Tuberculosis Dosing in Indonesia: A Qualitative TDF Study** Githa Fungie Galistiani, Universitas Muhammadiyah Purwokerto
SP18	**Predictors of persistent benzodiazepine prescriptions in Australian primary care** Monica Jung, Monash University
SP19	**Closed-loop real-time allergy communication to prevent repeat drug allergy exposure** Panita Kapol, Nakhon Pathom Hospital
SP20	**Trends in contraceptive prescribing in Australian general practice: A longitudinal national study** Gizat Molla Kassie, South Australian Health and Medical Research Institute
SP21	**Workflow-embedded automation improves hepatitis B screening and safety in b/tsDMARD users** Meng Hsuan Kuo, Dalin Tzu Chi Hospital

Group 2 - Effectiveness, economics and clinical course	Location: Monash Connect
SP22	**Comparative effectiveness of atezolizumab plus bevacizumab versus lenvatinib in advanced hepatocellular carcinoma** Hui-Yu Chen, Linkou Chang Gung Memorial Hospital
SP23	**Real-world outcomes of sacubitril-valsartan for treatment of heart failure in Singapore** Shi Thong Heng, Agency for Care Effectiveness
SP24	**Sulfonylurea use and vascular complications in type 2 diabetes** Di Liu, University of Macau
SP25	**Cost-utility analysis of subdural electrode and stereo-electroencephalography monitoring for drug-resistant epilepsy patients** Nattiya Kapol, Silpakorn University
SP26	**PPCVD-HEM+: GPU microsimulation and Monte Carlo tree-search optimisation for cardiovascular prevention** Harvey Jia Wei Koh, Monash University
SP27	**Sequence matters: trajectories,velocities, and competing mortality risks in type 2 diabetes complications** Pornpun Chalermrum, Ubon Ratchathani University
SP28	**GLP1R–SLC5A2 interactions and kidney function in Mendelian randomization** Chenyuan Yan, University of Nottingham Ningbo China & SUAT
